

2009-10 SUMMER RESEARCH SCHOLARSHIPS

The Faculty is keen to introduce its high achieving students to the research activities undertaken in the Schools. To facilitate this, it will be awarding Summer Research Scholarships of \$3000 each, to allow students to work in a research group for a period of 6 weeks during the 2009-10 summer vacation period.

Scholarship holders will work alongside staff and graduate research students and gain experience in identifying and solving research problems. These experiences will provide an excellent preparation for future Honours and postgraduate programs.

Scholarships will normally be awarded to those students about to embark on the final year of their undergraduate degree program in 2010.

To apply for one of these scholarships you will need to first make contact with the appropriate Head of School to identify which projects are available. Contact details of Heads of School can be found via the SET Faculty website:

<http://www.utas.edu.au/set>

- click on 'Schools' to link to School websites and contact information.

You should submit a written application providing the following information:

- Name and student ID number
- Contact phone number and email address.
- School in which you wish to use the scholarship.
- Title of project you plan to undertake, together with the name of the contact person in the School for that project.
- A brief (about half page) statement of how you believe you will benefit from the research experience supported by the scholarship.
- A copy of your academic record (available via the eStudentCentre).

Applications should be received at the Faculty Office no later than **6 November 2009**. Applicants will be notified if they have been successful in early December 2009.

Enquiries can be made to Jane Pulford on 03 6226 1797 or jane.pulford@utas.edu.au
