My Degree Planner

- Consult the UTAS Course and Unit Handbook for the units of your degree – these are presented in Schedules.
- Use this planner to help plan out your degree. Some of your introductory level units are fixed and are shown here. However, you still need to select some units yourself, i.e. 2 student electives and the 2nd degree elective.
- Enrol online at the eStudentCentre: www.studentcentre.utas.edu.au

What are the requirements for my degree?

You need to complete 24 units, consisting of a major (8 units), a minor (4 units), 4 degree electives and 8 student electives.

When choosing the degree and student electives, you need to ensure that the total number of units in the degree complies with the ranges below:

Introductory level: a minimum of 8 and a maximum of 10 units

Intermediate level: a minimum of 6 and a maximum of 10 units

Advanced level: a minimum of 6 and a maximum of 10 units

What are degree and student electives?

Degree electives are information systems units chosen from the degree schedule, normally 2 at introductory and 2 at intermediate / advanced levels. One of the introductory units is fixed, for the other you have a choice of three units.

Student electives are your choice of available units from any study area across the University, provided you are eligible to enrol in them (i.e. meet any unit pre-requisites). You can take a second major or minor in another area through your student electives and try out different subject areas - it's your choice.

Find your electives in the UTAS Course and Unit Handbook: www.utas.edu.au/courses
